

ARABESCATO D'ORO CABLE

Arabescato D'Oro Cable transforms the celebrated gold-veined marble through sculptural linear carving. Defined by a continuous run of rounded, closely spaced ridges with a hand-chiseled character, this dimensional tile feels both ornamental and rugged—paying homage to the marble's decorative power and its elemental texture. Cable coordinates beautifully with Arabescato D'Oro Rock Finish, and pairs equally well with any Arabescato D'Oro slab, tile, or mosaic.

Available in 12" x 24" x 1/2" tile.

NOTES												
¹ Showers: Product MUST be installed in accordance with current TCNA Handbook Stone Methods ² Alternate setting material - Ardex XS White Medium Bed Mortar or Ardex 100% Solids Epoxy Adhesive White ³ Alternate grout - Ardex DG 1 – One Component Grout or Ardex FL Rapid Set Sanded Tech Note: Arabescato D'Oro Cable Finish is a carved, natural stone that is hand-finished. Allow for variation in piece-to-piece alignment. Dry laying of this product prior to installation is required. Shade variations, inclusions, and inherent voids that will not be filled during production may be present in the stone. This is intended to be part of the natural aesthetic of this product and are to be expected. Material may exhibit random spotting of mineral deposits. This cable finish reveals the full range and variation of the stone and can impart a slight irregularity of texture on the face of the stone. Directional troweling and back-buttering large format tiles helps ensure full coverage, mortar transfer, and bond. White mortar is recommended for natural stone. Minor vein washout is possible in wet area installations. Seal and utilize a grout release prior to grouting. Consider bag grouting this product.
